

The S.O.U.L

Charlie need some teenagers which are unknown to each other and who are actually interested and capable of serving themselves for their world. Charlie wants strong boys and girls so that they can complete each and every mission without any difficulties. Charlie, a genius scientist and 24 years old, a recently graduated collage boy. He used to gain all the information and knowledge from the internet. Now he is so capable that he has made his own server and also he can crack any server including the government one. He is a graduated collage boy but very rarely gone to collage he even know more than any scientist. His only dream is to unite the whole world and make one nation. And for that he can fight any type of internal or external war. He made a laboratory (**The S.O.U.L**) under the garden of his home which is extremely high tech and untraceable, but legal. In papers he showed this laboratory as a personal lab so that it can be legalize and of course this lab is in his property so nobody can question anything.

Charlie started his journey on finding some real talent who is best suitable for the work. At last, after searching for three months he finally got a university The International Heritage University which is situated in the New York City near his home. He has hacked the

university server and sort listed five names **Caleb, Jordan, Rofan, Myra and Leah** from different countries in the world. Caleb, 20 years old boy, is from New York, Jordan, 19 years old boy, is from South Africa, Rofan, 21 years old boy, is from Germany, Myra, 19 years old girl, is from India and Leah, 18 years old girl, and she is from Tunisia. Charlie is thinking that now it is the right time to meet everybody of this group.

He reached at university and started talking to them one by one. First of all, he had taken out all the information regarding them and now he finally called everybody in his home. What's up guys...?

Caleb: Why you called us here and who are you...?

Myra: Yeah, exactly.

Jordan: Is this a joke...?

Rofan: this is my gym time so tell fast.

Charlie: Leah why are you silent now only you are left say something.

Leah: I have to go for studies.

Charlie: Everybody, done! Now listen to me very carefully with full concentration.

Everybody shook their heads and get sited on sofa.

Charlie: I am Charlie, a scientist and a human like you all who wants one nation, one world. Peaceful world where everyone from every religion will stay together no border,

no barrier nothing, one currency, one government, one assembly everything will be one in that world.

Jordan: Oh come on, how do you know all these that we think like this and we want peaceful world with one nation, one world.

Rofan: huh joker, now he said that he is a scientist so, of course he has hacked our social media accounts. And think wisely why he has only selected five of us and not anyone else.

Jordan: Oh body builder, did I ask anything to you...?

Charlie: Absolutely, he is speaking correct. Jordan.

Myra: So, why you called us here, what do you want?

Caleb: Exactly, that's my question.

Charlie: We all have to work together to fulfill this dream.

Leah: Work, what type of work?

Charlie: Mission, various types of mission but I promised everyone's life is my responsibility so no loses of lives from among us.

Caleb: what do you mean by our lives? We have to take lives of others.

Charlie: May be, sometime!

Jordan: we are not going to do this and it's almost like an impossible job.

Everybody got vanished from Charlie's home and they back to their normal daily life. Charlie knew very well that he can't do anything alone. He needs those five boys & girls. Also, Charlie get back to his laboratory and started working on SUPER SERUM (a type of fluid which get injected on body to convert a normal human to super soldier). After working 15 weeks on serum he finally did it and successfully made a 7 super serum. 1 for testing, 1 for himself and others 5 for those boys and girls. In between this, there was going a war between Israel and Palestine. Israel bombed Palestine and many innocent people died from both sides.

This incident was a trigger point for those five. One evening they decided to go to Charlie's home to accept the offer.

Outside the door of Charlie's Home. They were discussing and murmuring something. A voice came "Everybody please come inside."

Jordan: Boss, where are you...?

Charlie: I am here at the garden come straight.

Rofan: Oh Indoor garden, so your part time job is as a gardener.

Charlie: something like that. Where are others?

Jordan: they are coming, actually I think we came early.

They were roaming on the garden and waiting for others.

Myra: hello guys, we are here.

Rofan: hello Ms.

Myra: Ms. Myra from India.

Rofan: I am Rofan from Germany, and India is a beautiful country wanna go for adventure to India.

Jordan: we are also here.

Charlie: okay guys, let's get back to the topic. Are you ready to work with me?

Everybody, "Yes, Boss".

Charlie: So, I know all your weakness and strength like Myra and Leah is trained on Karate, basically Karate expert. Caleb, the martial arts expert. Rofan, strongest boy among us, the bodybuilder. Jordan, the tech giant. But this not enough for our mission you all have to take the complete training of a soldier.

Caleb: But this require lots of money and time.

Charlie: Yeah, I know one private company they will train you for three months and don't worry about the money I have accessed of many bank accounts of terrorist organizations.

Jordan: Oh my god, but, boss why me I am tech giant is I need a training.

Charlie: My boy, you need special training everybody is fit except you, and I will talk about your special training.

Jordan: Oh no.

Rofan: Oh yes, it's time for fun.

Charlie: shut up everyone and follow me.

Everybody at the Laboratory.

Leah: Wonderful, huge laboratory with every section.

Charlie: this is only small part of the laboratory.

Jordan: all the high-tech technology are present here which I always wanted to use.

Caleb: this laboratory has everything.

Myra: Yeah, you're correct.

Charlie: everybody come here in the room MET07, this is our emergency and discussion room here we will discuss everything related to anything.

Jordan: Boss, anything like love...

Charlie: stop, stop, you nonsense I mean anything related to work.

Everybody laughs.

Charlie: Here, your papers sign it.

Rofan: what type of papers...?

Myra: exactly...

Charlie: so that you can't leak any information and can't back out from any mission.

Caleb: will you take guarantee of our lives...?

Charlie: yes, but if somebody lose their life during mission then I will compensate their family. And you will not get paid for any mission. Decision is yours, no pressure of anything.

Without saying anything they signed the papers.

Charlie: Are you all ready for your training...?

Everybody "Yes, Boss".

After completing three months training now they meet at the garden again from there Charlie take all to the MET07, at the laboratory.

Charlie: are you really the Jordan...? They have changed your face totally.

Jordan: yes boss, but it was fun now I am actually feeling like soldier.

Charlie: Good, it's time to build your team. Caleb will be the captain of this team okay, you will listen to Caleb during mission.

Jordan: Our Captain, Caleb.

Myra: Captain your signature please.

Everybody laughs.

Charlie: code name for everyone be like for captain (cap), for Jordan (sol-1), for Rofan (sol-2), for Myra (sol-3), and for Leah (sol-4). Our only motto is to complete all the

missions without any difficulties and to help people if needed. Now be serious here's your guns for your safety and yes Jordan do not use this to kill Rofan, I mean do not use for personal use and definitely in public if not needed. And I am preparing your suits for all so that nobody can recognize you. They will think, you are also a super hero like Captain America, Iron man etc.

Jordan: Great work brings great responsibility. Of course, I will not kill this bodybuilder. And what's about the suits its sounding cool I want my suit like Spiderman suit as he is my favorite hero.

Charlie: this suits will be high-tech and of course Jordan I will make your suit like Spiderman suit. And important announcement I have made green card of Jordan, Rofan, Myra and Leah, now you got the citizenship of USA, now you are official citizen of USA. Show let's meet on Sunday.

Again, everybody got vanished without saying a words.

Charlie: I have to talk about this, every time they are vanishing like anything.

Three days later on Friday night, Charlie called everybody and told to report at the S.O.U.L.

Everybody reached within half an hour.

Jordan: Boss, it's a Friday night and you called us here.

Rofan: For the first time, you are correct, Jordy.

Charlie: In our job there is no Friday nights and no weekend we have to work 24*7 at no cost. Your suits are ready, go and checkout and come quickly within 10 minutes more to tell something important.

Everybody, “Absolutely, Boss”.

Everyone at the trial room.

Rofan: Jordy, you are looking joker seriously ask Myra.

Myra: Stop making fun of him, Rove.

Caleb: is everybody's suits set perfect...?

Leah: Yeah, It's perfect.

Myra: but how to use this suit everything is so complicated.

Jordan: no worry, while Jordy is here.

Jordan explain everything about the function of the suits to everyone.

After ten minutes, they reported to Charlie.

Charlie: forget about the weekend, there is no weekend for you at least for this week. There is an important mission in Tunisia and you will get all the information regarding the mission there.

Leah: Really...?

Charlie: don't worry about your home. The location of mission is far away from your home almost 200Km. This is

your first mission so there will be two teams for your safety Team 1 and Team 2. In Team 1, there will be Captain and Myra and in Team 2 there will be Jordan, Rofan, and Leah. Team 2 will be the main team who will actually lead this mission and Team 1 will be backup team for Team 2. Is that clear everybody.

Everybody, "Yes, Boss".

Charlie: this is your tickets, take your passport too and remember you are common people and you are going Tunisia for fun. Don't let anybody know that you all are a team and Team 1 will not interfere in the mission until and unless Team 2 will face any danger situation. And of course you have learned various consequence of a mission in your training. So, you know everything there is no chance of mistakes. Best of Luck, the members of The S.O.U.L.

Team 1: Thank you, Boss.

Team 2: Thank you, Boss.

They left for the airport.

At Airport...

Jordan: this is unfair, Rove. We are in mission and Team 1 is going for holiday.

Rofan: yes Jordy, I think you're right.

Leah: shut up both of you. They are not going in holiday, they are also in mission, and they are backup for us, you idiots.

Jordan: we don't need any backup, we can handle the mission alone.

Rofan: absolutely!

Leah: let's see on battleground.

In plane, at first section...

Jordan: Guys, I am going to sleep. Wake me up on we will reach Tunisia border.

Rofan: I am not going to say a single words.

Leah: you guys will never change.

In plane, at middle section...

Myra: this guys will never change, even from here I can understand they are fighting.

Captain: I know but we all are same one and we only want one nation, one world.

After few hours, they reached at Carthage International Airport in Tunisia.

Leah: everyone stay connected through Bluetooth, Boss is also on line.

Jordan: Copy and Over.

Rofan: Copy and Over.

Charlie: Leah, call the captain and say him to always stay on line.

Leah: Yes, Boss...

Leah called the captain and informed him about the Boss's call.

Myra: we are on line...

Jordan: really, I think you came for holiday.

Charlie: shut up, Jordy. Go outside the airport from Gate – 2, there you will find two cabs, cab no. 9865 and 2421 sit on it and go to the hotel there we will discuss further about the plan.

Rofan: Boss, how are you managing everything by sitting on New York City?

Charlie: you first do your mission successfully and come back. I will explain you everything.

At Marigold Hotel,

Jordan: Boss, this is 4-star hotel. Not 5 star...

Charlie: Yeah I Know, you are in mission not in holiday, my boy.

At reception of the hotel,

Jordan: nahn huna lihajz ghurfatayn.

Captain: what are you saying all these...?

Myra: He said, "We are here to book two rooms" in Arabic.

Rofan: Do you know Arabic...?

Myra: yeah, I have learnt Arabic in my school as a third language...

Jordan: Here are the keys of the room no. 401 and room no. 403. By the way receptionist was very pretty.

Leah: We Tunisian are the prettiest in the World.

Myra: Oh ho, I see.

Charlie: Okay everybody, now you take rest... afterwards we will discuss about the mission.

After 4 hours...

Charlie: Hello guys, get ready for the mission.

Jordan: But we don't know anything about the mission.

Charlie: Yeah I know, dear Jordan. I am going to tell you now, listen carefully everyone. There is warehouse near the mall named AZUR CITY in the city, Manouba, in that warehouse biological weapon is being made and currently they experimenting their biological weapon on innocent people of Tunisia. This biological weapon or virus is extremely dangerous almost 10 times than Covid-19. This virus should not come out in real world otherwise it will be the most destructive virus till date. And if the name of the country come out then it may lead to World War III and you all are much capable to think that World War III

means no people on Earth. Surely, Tunisia is not making it. And we cannot disclose the names of the country we have to just stop this experiment and destroy all the viruses. Our only priority is to save the innocent Tunisian and to destroy all the viruses which are present in the laboratory. And the most important I want that you all should come back safe and sound.

Captain: Oh My God, this is too dangerous, are you sure that this mission will be done by Leah, Jordy and Rove.

Jordan: yes boss, Captain is correct this is too dangerous for us.

Charlie: yes, I'm pity sure. This mission will be handle by Leah, Rofan and Jordan means Team 2. Leah will lead the Team 2 as she knows the city more than anyone and very important Team 1 will roam like common people near the warehouse. All will be connected through their band which is present in your hand.

Leah: sure boss, when to start the mission.

Charlie: After 10 minutes, vehicles will be in hotel and Best of Luck!

Myra: Thank you, Boss!

Rofan: We are going in the World of Zombies... By the way, thank you, Boss!

Jordan: Bro, you know what actually they will get shocked by seeing you, Gym Junkie.

After 10 minutes,

Jordan: seriously boss, we are going in these bikes.

Leah: be serious, Jordy. You may lose your life there. At least for now please.

Myra: Leah, we are leaving for warehouse, we will be there, if you will need help then just call but in Hindi as they will not be able to recognize what we are communicating,

Jordan: but I forget all the language which were taught to us in training.

Leah: seriously, Jordan.

Jordan: No man, I'm just joking.

Leah: this is too ridiculous... Boss, I will not work with this man.

Charlie: Okay, we have no time to afford this.

Charlie called Captain and said to come back to go with team 2 and Jordan will go with Myra.

Near the warehouse, Team 1 (Myra and Jordan).

Myra: Jordy, why you have done all this nonsense, do you have any idea this can cost our life.

Jordan: I know I have done wrong I shouldn't do that nonsense but now I am serious.

Myra: Good, now stay focused.

Near the warehouse, Team 2 (Leah, Captain and Rofan).

Leah: Stay alert, Team 1! We are going to enter in warehouse.

Team 1: Copy and Over!

Leah: Over!

In very low voice,

Leah: Boss, we cannot find the experiment room as laboratory is huge. Do you have blueprint?

Charlie: Go straight and turned left there you will find small green marble in the ground that green marble is removable and under the ground there actual laboratory starts. Team 2, wear your suit I mean press the yellow button on your band, the suit will come out and it will get fitted on your body.

Rofan: Done!

Leah: Oh god, now we are in actual laboratory. Stay alert!

Captain: Leah, in your left there are 8 people including men, women and children. See...

Rofan: They are locked in glass room, they can't hear us. And there is some device which are connected to door.

Leah: They must be hostages. We have to save them. But where are doctors and the person who are actually doing this.

Captain: May be they are in experiment room. But something is wrong they can't leave them like this... Stay more careful.

Rofan: Leah, we can't open this door until someone puts the correct code in this device. We need Jordy, Jordy can hack this.

Captain: Leah and Rove hide yourself someone is coming I can hear the footsteps.

Leah: We need help, they are many in numbers I can see them... Captain call Team 1 immediately...

Captain: Team 1 come in, come in... Emergency,
Dusmaano ne haamla kaar dieye hain. Sidha aakar
left waahan par green marble hain waahan se andar
aao.

Team 1: We got it...

Myra: Come on, let's go Jordy...

Jordan: I am following you!

Team 1 in the actual laboratory,

Myra: We are here, in front of the glass room, I can see
Rove.

Charlie: Team 1, Get suited, fast!

Rofan: Take out gun, Jordy! Jordy fast... And see in your
left.

Jordan: But why?

Suddenly, Rofan killed a man with his gun, who was about to kill Jordan.

Jordan: Thank you bro!

Leah: Jordan, go near the glass room and crack the code of the room. And save the life of hostages... We are here, to fight with them.

After the fight of 8-10 minutes, those men were in the ground. And by that time Jordan had also cracked the code and saved the life of hostages.

Hostages: Oh, ho, ho, Spiderman saved our life!

Jordan: Finally, we are done!

Leah: Jordy, still something left... Search the bottles of viruses it must be on 1st floor in the experiment room. Jordan, you and Rofan go. And we are going out from here with the hostages.

Jordan: Sure, ma'am... we are going.

At the experiment room,

Rofan: Jordy, there is the bottles.

Jordan: Rove, put the fire in whole room. Don't left any traces of virus.

Rofan: Are you sure, Jordy?

Charlie: Jordan is speaking correct, put the fire...

Rofan: Yes, Boss.

Outside the warehouse,

Hostages: Thank you so much, they were about to inject some virus in our body... Thank you, you all saved our lives.

Leah: You're welcome. Have a good day!

Hostages: We love you Spiderman...

Jordan: Smiled.

Leah: Mission Accomplished!

Charlie: Congratulations guys... Now leave that city as soon as possible.

Leah: Yeah Boss, we are directly leaving for an airport.

Jordan: I am sorry Leah, for my behavior.

Leah: Smiled and hugged each other.

Rofan: Oh, ho, guys we are also here.

Myra: Don't worry Rove, I'm here for you, your Ms. Myra from India and yeah Indians are beautiful too...

Captain: Smiled.
